# LITHPLEX BLUE GREASE EP2

Code: 8120
Date: 03-05-2018

## DESCRIPTION

**LITHPLEX BLUE GREASE EP2** is a premium lithium complex lubricating grease containing a tackiness agent. This universal lithium complex grease has a high dropping point in excess of 250°C, which ensures retention where high temperatures are encountered. It offers significant advantages over conventional soap and clay-based greases in terms of shear stability, thermal stability, water resistance and pumpability. Excellent high temperature properties make it a good wheel bearing grease.

## SUMMARY OF BENEFITS

LITHPLEX BLUE GREASE EP2 has been formulated with a special additive package which ensures high film strength and provides extreme pressure (EP) and anti-wear properties. The high quality virgin base fluids provide excellent natural oxidation inhibition. This combined with effective anti–oxidants as well as corrosion inhibitors provide extra stability under storage and extreme service conditions.
