

SPEEDWAY

50

Code: 9212

Date: 14-03-2018

DESCRIPTION

SPEEDWAY 50 is a specially designed oil for racing engines running on methanol or other alcohol fuels which are incompatible with normal engine lubricants. SPEEDWAY 50 is formulated with castor oil which allows SPEEDWAY 50 to tolerate quantities of unburnt methanol fuel passing the piston rings into the crankcase.

SPEEDWAY 50 is also suitable to racing engines running on petrol fuels such as Avgas, High Octane leaded or un-leaded petrol. It is a shear resistant lubricant enabling high speed high temperature performance to be obtained over several race meetings.

SUMMARY OF BENEFITS

SPEEDWAY 50 is versatile and suits racing engines running on various fuels like methanol, alcohol blends, petrol fuels such as Avgas, High Octane leaded or un-leaded petrol. It has exceptional shear resistance enabling

SPEEDWAY 50 is an alcohol compatible lubricant that will stand percentages of methanol additions and continue to function as a lubricant on a reducing scale as the amount of methanol absorbed into the lubricant increases. Protects valuable engine components from premature wear up until the saturation point is reached.

The castor oil in SPEEDWAY 50 gives all the benefits above. However, castor oil is heavy and has a tendency to separate so for best results it is recommended to **SHAKE CONTAINER WELL BEFORE USE.**
