SPEEDWAY 50

Code: 9212
Date: 14-03-2022

DESCRIPTION

SPEEDWAY 50 is a specially designed oil for racing engines running on methanol or other alcohol fuels which are incompatible with normal engine lubricants. SPEEDWAY 50 is formulated with synthetic ester oils and mineral base oils which allows SPEEDWAY 50 to tolerate quantities of unburnt methanol fuel passing the piston rings into the crankcase.

SPEEDWAY 50 is also suitable to racing engines running on petrol fuels such as Avgas, High Octane leaded or un-leaded petrol. It is a shear resistant lubricant enabling high speed high temperature performance to be obtained over several race meetings.

SUMMARY OF BENEFITS

SPEEDWAY 50 is versatile and suits racing engines running on various fuels like methanol, alcohol blends, petrol fuels such as Avgas, High Octane leaded or un-leaded petrol. It has exceptional shear resistance for uninterrupted wear protection in extreme conditions.

SPEEDWAY 50 is an alcohol compatible lubricant that will stand dilution of unburnt of methanol and continue to effectively lubricate the engine even with increasing levels of fuel in the crankcase and cylinder areas. It has an exceptional film strength to provide wear protection at extreme engine speeds and temperature.
