ENGINE FLUSH

Code: TQ 023
Date: 07-02-2018

DESCRIPTION

Sludge and deposits can form in all engines especially in stop-start conditions of city driving. These can rob your engine of performance, fuel economy and longevity. **ENGINE FLUSH** is a specially formulated blend of penetrants, lubricants and sludge dispersants designed to clean accumulated deposits, sludge and other gunk from all petrol and diesel engines.

SUMMARY OF BENEFITS

ENGINE FLUSH provides the following benefits:

- Cleans valves, hydraulic valve lifters and all engine parts
- Removes harmful sludge and other contaminants
- Frees piston rings
- Reduces fuel consumption and restores engine performance
- Contains no solvents
- Fortified with Extreme Pressure additives for enhance engine protection

Regular use of Engine Flush forms part of good vehicle maintenance regime.

APPLICATION

Ensure that the crankcase oil is at the correct level and oil filter is not blocked then run vehicle until normal operating temperature is reached. Apply using automatic flushing equipment according to equipment directions, or alternatively add about 250 ml of Engine Flush to the crankcase oil and idle the engine for 10 minutes. Stop engine and drain oil. Fit a new oil filter and add new oil as per vehicle manual recommendation.
