OIL FORTIFIER / ENGINE STOP LEAK

Code: TQ 025
Date: 07-02-2018

DESCRIPTION

Old worn out engines “burn” oil and have poor compression pressures. **OIL FORTIFIER / ENGINE STOP LEAK** is formulated to enhance the viscosity characteristics of engine oils in old or worn engines.

SUMMARY OF BENEFITS

OIL FORTIFIER / ENGINE STOP LEAK works by improving the viscosity characteristics of the oil as the engine gets hot. It makes the oil hold its viscosity better as the engine heats up resulting in:

- Improved compression
- Improved oil pressure
- Reduced oil consumption
- Enhanced wear protection
- Reduced exhaust smoke
- Reduced engine noise

APPLICATION

When engine is at normal operating temperature, run at fast idle and add 500ml (2 bottles) of OIL FORTIFIER / ENGINE STOP LEAK for every five (5) litres of crankcase oil.

OIL FORTIFIER / ENGINE STOP LEAK is not classified as hazardous. Read Safety Data Sheet before use. Spillages may be slippery.
