SOLCUT EP FULL SYNTHETIC SOLUBLE CUTTING FLUID

Code: 9025
Date: 30-11-2020

DESCRIPTION

SOLCUT EP FULL SYN is a concentrated, mineral oil free, soluble fully synthetic cutting and grinding fluid, producing an extremely stable, transparent solution. It is a package that gives a greenish transparent emulsion that allows a clear view of the work piece and offers outstanding tramp oil rejection. SOLCUT EP FULL SYN provides excellent corrosion protection and has a very low odour. It provides high lubricity for application on all metals. This product does not contain any chlorine, nitrites, phenols or active sulphur. Especially suitable to grinding operations.

SUMMARY OF BENEFITS

- Does not emulsify mineral oil contaminants
- Excellent cooling and lubrication
- Premium corrosion protection and high-quality output
- Suitable for both ferrous and non-ferrous metals
- No free TEA content
- Long life
- Low foaming
- Operator and environment friendly
- Transparency allows close inspection of cutting operation

APPLICATIONS

SOLCUT EP FULL SYN is designed to be blended with good quality water, to produce a fully synthetic metal working fluid, free from oil.
For best results, add Solcut EP into water, not water into Solcut EP.

RECOMMENDED DILUTION

THE END USE RATIO OF THIS PRODUCT WITH WATER WOULD BE BETWEEN 20:1 AND 33:1

However, the ultimate concentration must also be compatible with the materials used and the machining operation.
