

SYNERGY 5W40 SP

Code: 9161

Date: 01-11-2022

DESCRIPTION

SYNERGY 5W40 SP is a full synthetic petrol motor oil formulated with advanced synthetic base stocks and a premium additive and is recommended for late model direct-injection petrol engines. It provides modern high output turbo-charged engines excellent protection from wear, corrosion and heat. It has excellent thermal and shear resistance to resist sludge formation for longer oil life. SYNERGY 5W40 SP is formulated to resist LSPI in modern direct-injected petrol engines where oil chemistry plays a part in resisting this catastrophic phenomenon. Its higher viscosity makes it suitable for high performance engines requiring a 5W40 grade oil

SUMMARY OF BENEFITS

SYNERGY 5W40 SP meets or exceeds the requirements of an API SP engine oil and is suitable for all modern petrol engines requiring LSPI protection. It is also recommended for older engines requiring API SN and SL.
